

GDPR and Journalism

At **Field Forecast**, we are committed to protecting the privacy of our users while preserving the right to freedom of expression and information in relation to sports reporting, editorial analysis, and statistical publications.

1. Editorial and Journalistic Content

Field Forecast publishes sports-related information including, but not limited to:

- match previews and reviews
- player and team statistics
- injury reports
- transfer news and rumors
- editorial opinions and analysis
- predictive data models and probability insights

Such content may involve the processing of publicly available personal data relating to professional athletes, coaches, clubs, and public sporting figures.

Where applicable, this processing is carried out for **journalistic and informational purposes** in accordance with **in accordance with applicable international data protection, privacy, and freedom of expression laws, including laws relating to journalistic and public-interest publication Regulation (GDPR)**, which provides for the reconciliation of data protection rights with freedom of expression and information.

2. Public Interest and Sports Reporting

Information published on **Field Forecast** is intended to inform the public on matters of legitimate sporting interest.

This includes the use of:

- player names
- club affiliations
- match performance statistics
- disciplinary records
- injury status where publicly reported

Such information is published in good faith for editorial and sports journalism purposes.

3. User Data and Platform Services

The journalistic exemption does **not apply** to personal data collected from our users.

For account creation, subscriptions, newsletters, analytics, and support services, **Field Forecast** processes user data in accordance with GDPR principles, including:

- lawfulness and transparency
- data minimization
- security and confidentiality
- user rights of access, correction, and deletion

This may include:

- email addresses
- usernames
- IP addresses
- cookies and device identifiers
- billing and subscription details

4. Cookies and Analytics

We may use cookies and similar technologies to improve platform functionality, measure performance, and personalize user experience.

Where required by applicable law, consent will be requested before non-essential cookies are activated.

5. User Rights

Users may request:

- access to their personal data
- correction of inaccurate data
- deletion of their account information
- restriction of certain processing activities

Requests may be sent to:

info@fieldforecasts.com

6. Disclaimer on Predictions

All forecasts, probabilities, and predictive insights provided by **Field Forecast** are statistical in nature and are for informational purposes only.

They do not constitute guarantees, financial advice, or betting advice
